

## 65000H Heavy Duty Grease

Document version: November 17th 2018

### Description

Heavy duty grease is a high-performance Lithium-Calcium grease. This high quality mineral base oil in combination with special EP additives and polymers prevent metal-to-metal contact, reducing friction and wear under extreme conditions. It provides a stable and adherent lubricant film with outstanding water-resistance properties, even under high load conditions. MPM Heavy Duty Grease covers a wide range of usage including off-road and construction applications such as bucket pins, chassis points and heavily loaded plain bearings in shovel loaders and other equipment. It is also suitable for certain 2-way centralised lubrication systems and as fifth wheel grease.

# According to the specifications of

Packing units

## DIN 51825 KP2K-20

| ART. NO. | VOLUME | ITEMS PER UNIT | ITEMS PER PALLET |
|----------|--------|----------------|------------------|
| 65000H   | 0.4 kg | 12             | 1200             |
| 65001H   | 1 kg   | 6              | -                |
| 65005H   | 5 kg   | 1              | -                |
| 65018H   | 18 kg  | 1              | 28               |
| 65050H   | 50 kg  | 1              | 12               |
| 65185H   | 185 kg | 1              | 2                |
